

README FILE:

CS-4347 Milestone 2 - Library System

Implemented: Book Search & Overall Database (Sriram Lakamsani)

Implemented: Checking Out Books (Hafsah Navaid)

Implemented: Checking In Books (Kimberly Grace)

Implemented: Borrower Management (Ashrita Dara)

Implemented: Fines --both functions-- (Mira Shan)

Programming Language & Database (Approved per Assignment)

- **Language:** Python 3.11
- **Database:** SQLite (built-in Python module)
- **GUI:** Console-based (GUI not required until Milestone 3)
- **Third-party modules:** None (only Python standard library used)

To run after extracting the zip file: Run in Powershell:

1. python database.py (only need to run once to set up the database)
2. python library.py (to run all of the functions)
